Languages: C++, JavaScript

Frameworks: HTML, CSS, Bootstrap, Node.js, React.js

Databases: MySQL, MongoDB

Tools: Git, GitHub

Soft Skills: Problem-Solving, Leadership, Resource Management, Versatility

Education

Bachelor of Technology in Computer Science and Engineering

Lovely Professional University, Punjab, India

CGPA: 8.01/10 (80.1%) | October 2021 - Present

Intermediate | Sri Chaitanya Vidhya Niketan, Vishakhapatnam, A.P.

Percentage: 83.4% | June 2018 - March 2020

Matriculation | Little Flower School, Darjeeling, West Bengal

Percentage: 79% | April 2016 - March 2018

Certifications

Full Stack Development - Infosys Springboard (August 2024)

Front-End Developer Professional Certificate - Meta (January 2024)

Algorithms Specialization - Stanford University (Coursera) (May 2023)

Introduction to AI - IBM (Coursera) (March 2023)

Introduction to Hardware and Operating Systems - IBM (Coursera) (March 2023)

Summer Training

MERN Stack Development | Cipher Schools | June 2024 - July 2024

- Developed an interactive and responsive front-end application using React, HTML, and CSS.

- Enhanced back-end performance with Node.js, Express, and MongoDB.

- Conducted server-side pagination and unit tests for reliability.

JavaScript for Web Development | Board Infinity | June 2023 - July 2023

- Gained hands-on experience with DOM manipulation and server-side solutions.

- Explored APIs, AJAX, and asynchronous programming fundamentals.

Projects

Connect4 Game | August 2024

- Developed a game inspired by Candy Crush, utilizing React for a dynamic user interface.

- Implemented features including onClick events, props, hooks, and Netlify deployment.

- Technologies: Node.js, React.js, JavaScript.

Random Quote Generator | June 2023

- Created a web application that generates random quotes to inspire and entertain users.

- Employed JavaScript for interactivity and responsiveness.

- Technologies: HTML, CSS, JavaScript.

Number System Converter | October 2022

- Built a tool for converting binary, octal, decimal, and hexadecimal values with a Tkinter-based GUI.

- Features included copy, paste, and conversion functionalities.

- Technologies: Python (Tkinter).

Achievements

Cocubes | August 2024

Scored 598/800 in Cocubes.

HackerRank Problem Solving | January 2024 - Present

Rated 3 stars in problem-solving in C++ and SQL.

DSA and SQL Practice | August 2022 - Present

Solved over 200 problems on HackerRank, Geeks for Geeks, and LeetCode.

Final Thoughts

By integrating relevant keywords naturally throughout your resume and following ATS formatting guidelines, you'll significantly enhance your chances of passing through the initial screening and reaching hiring managers. Optimize your resume regularly to stay competitive in today's job market.
